

PROJECT 6

Page 310, Steps 9–12

The folder path is incorrect. The step should read:

9. Click the button to the right of the Local Site Folder field. Navigate to the **WIP>ATC** folder and click **Choose/Select** to return to the Site Setup dialog box.

Also, the following steps are incorrectly numbered. The second Step 9 should be Step 10, and so on:

10. Click **Save** to accept the Site Setup definition.
11. In the **Manage Sites** dialog box, make sure the **ATC** site appears in the list of sites, and then click **Done**.

All existing files in the defined root folder are now listed in the Files panel.

12. Continue to the next exercise.

Page 315–316

The pages are reversed in the first printing.
Page 316 should appear before Page 315.
